

A fire may occur at home or at school.

Smoke and flames created in a fire can harm me.

If there is smoke where I am, I have to bend over and crawl out.

I stay calm and if there is a red fire alarm button around, I activate the fire alarm by pressing it. If there is no fire alarm, I will tell someone close to me that there is a fire.

I stay away from the fire place.

If I have a mobile phone when I get out of the fire place, I should dial 112 to call the fire department and tell the firefighters where the fire is.

Staying calm when there is a fire at home or school, bending over and crawling out if there is smoke, notifying everyone by pressing the fire alarm button, calling the fire department are very important behaviors for my safety.
