

I can be at home or at school when it floods.

Flood waters can harm me, drag me to distant places.

I should stay away from electrical sources such as lampposts.

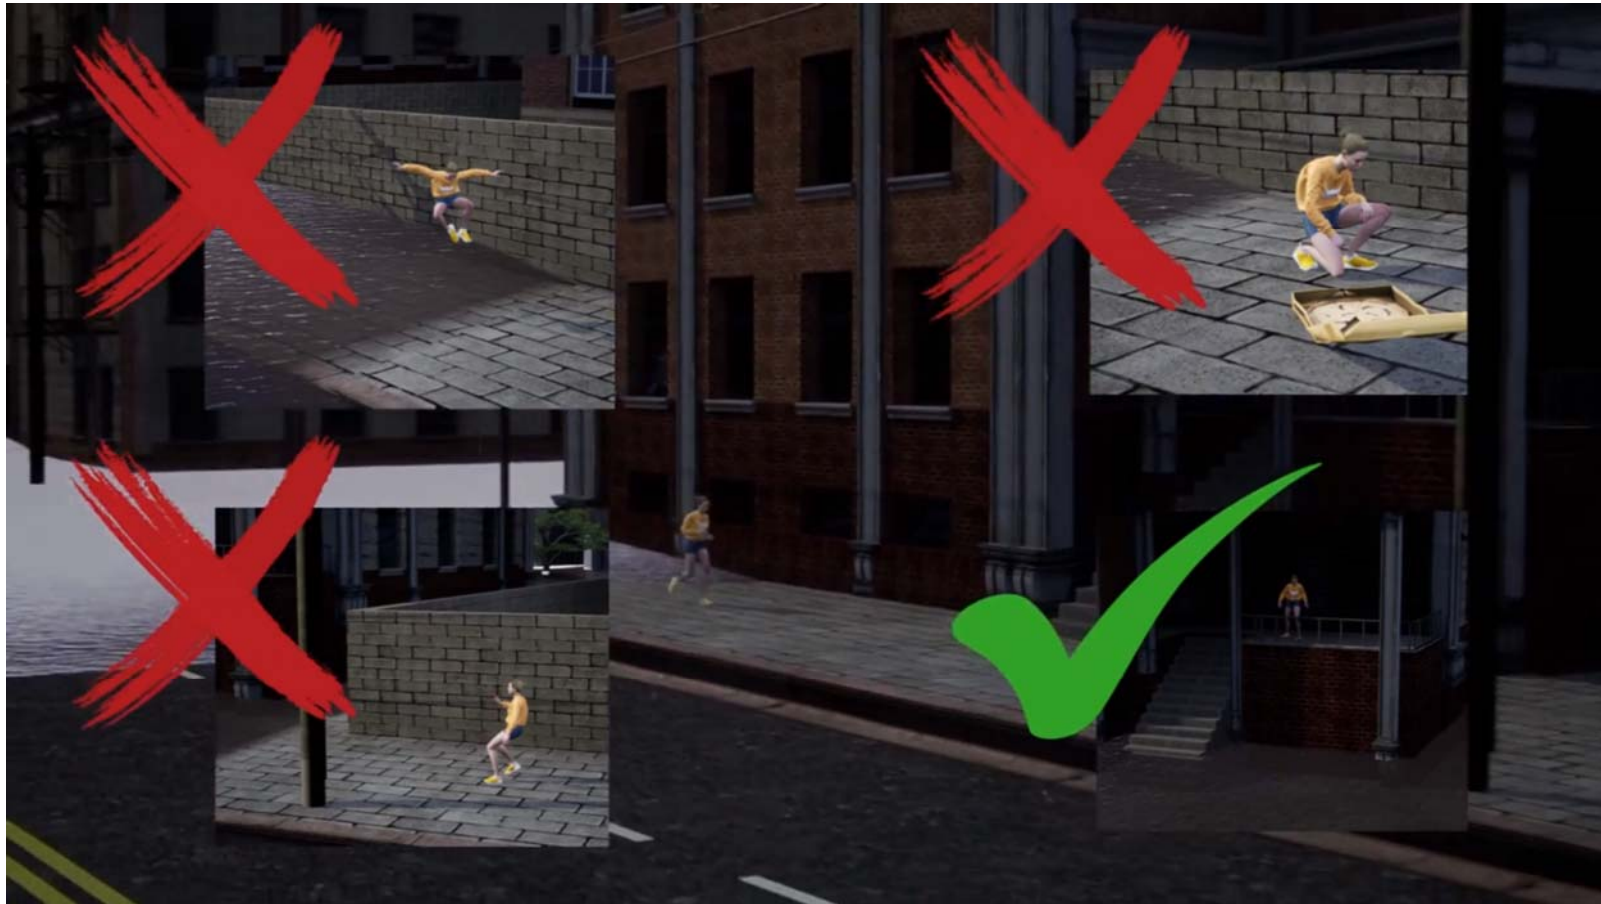

Flood waters can make me sick because they are dirty. That's why I shouldn't play with floodwaters.

I must never eat food touched by flood waters.

When there is a flood, I immediately go to a high place to be protected from the flood.

When there is a flood, staying away from electricity poles, not playing with flood waters, not eating food touched by flood waters and going to a high point from where I am, are very important behaviours for my safety.

I LEARN AND GET BEYOND MY LIMITS
